Combustion Management

Burner Management Systems

Flame Scanners

Spark Igniters and Gas Pilots

Combustion Control Systems

ROSEMOUNT

EMERSON
Process Management

Innovative Measurement & Analytical Technology

— Combustion Analyzers

— Pressure, Temperature, and Flow

— Flame and Gas Detection

Service

Experienced Burner, Boiler, & Instrument Technicians

- Burner Tuning, Troubleshooting Startup
- NFPA 85/86 safety checks
- Boiler tuning and calibration
- MACT testing & Reports
- Instrumentation Calibration

Integration

Complete Control System Design, Checkout & Startup

- Burner Management Systems
- PLC / HMI Design & Programming
- Fuel Train Assembly
- Equipment Repairs & Inspections
- Custom Panel Shop

Pressure

Differential Pressure Gauges
 Differential Pressure Switches
 Pressure Transmitters
 Pressure Switches
 Pressure Gauges

Level

Level Indicators
 Level Transmitters
 Level Switches
 Level Pump Controllers
 Level Transducers
 Radar Level Transmitters
 DP Level Transmitters

Temperature

Thermocouples & RTDs
 Thermometers
 Temperature Switches
 Temperature Sensors
 Temperature Transmitters

Flow

Flow Meters
 Flow Transmitters
 Flow Sensors
 Mass Flow Meters
 Flow Switches
 Coriolis Meters
 Vortex Meters
 Magnetic Flow Meters
 DO Flow Meters

Valves

Slide Gate Valves
 Globe Valves
 Control Valves
 Ball Valves
 Angle Seat Valves
 Butterfly Valves
 Sanitary Valves
 Valve Positioners
 Shutoff Valves

Control Cables

Instrumentation Cable
 Thermocouple Cable
 Fiber Optic Cable
 Communications Cable
 Portable Power Cable
 Motor Lead Wire
 Hookup/Panel Wire
 Grounding Systems
 Wireless Solutions
